ENVIRONMENTAL TEST REPORT

(page 1 of 1)

To: Nichols Aircraft
48 Woerd Avenue
P. O. Box 9115
Waltham, MA 02254-9115

Date : 12-27-96
P. O. No.: N17354
Job No. : T-22010
Quantity : 3
Part No. : Unspecified
Item : Metal Samples

Associated Testing Laboratories certifies that the above referenced devices have been subjected to the specified tests set forth in the above referenced purchase order.

<u>TEST</u>	<u>TEST CONDITION</u>	<u>QUANTITY ACCEPTED</u>	<u>QUANTITY REJECTED</u>
Salt Spray	MIL-STD-810D, Method 509.2, 5% for 48 hours, and Verbal Instructions of Nichols Aircraft.	3*	0*
Humidity	MIL-STD-810D, Method 507.2, Cycle # 1, Natural, and Verbal Instructions of Nichols Aircraft.	3*	0*

Date testing completed: 12-27-96.

* Each of the three metal samples was received individually wrapped in filament tape and individually sealed within a plastic bag. Per verbal instructions of an Engineering Representative of Nichols Aircraft, both the Salt Spray Test and the Humidity Test were performed with the test units so shielded from the environments to which they were subjected.
