

100% Reliability

Efficient

Oil-free

Reusable

Application Report

Industry	Electrical Motors for Shipment and Storage
Type of Application	Trans-Shipment from Austria to locations within Europe and Storage on Site
Project Details	Road Transport
Previous Problems	Waxing and Desiccant Method with Barrier bags, and wooden crate did not allow opening the packing material on a frequent basis to turn parts of the machine. This is needed to protect bearings from damage. Hollow spaces within motor did not show adequate corrosion protection.
Revised Packaging Solution	One layer of INTERCEPT Shrink with hatch to open for turning of anker
Benefits and Improvement	Faster clean wrapping with ability to open package frequently. Lower cost of conservation since no wooden create is required.
