

100% Reliability

Efficient

Oil-free

Reusable

Application Report

Industry	Turbine Blades for international Shipment
Type of Application	Shipment of machined Turbine Blades to global destinations
Project Details	Storage and Shipment, Land and Sea Freight
Previous Problems	Waxing process combined with desiccant method resulted in high cost for preservation and very high cost for cleaning operations upon receipt.
Revised Packaging Solution	Bulk packaging using 80µm INTERCEPT® 2
Benefits and Improvement	Reduction of conservation effort. No waxing and oiling required. Blades are free of contamination and can be used immediately after pack-out
