

Product Data Sheet

PRODUCT DESCRIPTION:

DT-590R

DT-590R is a 9.0 mil. double-coated polyester tape. This product has an extremely aggressive solvent acrylic adhesive system with a polyester carrier, designed for bonding, sealing and splicing applications of dissimilar materials. This product has excellent tack and shear properties for various substrates

.STRUCTURE:

	RED Release liner
	Acrylic Adhesive
	Polyester Carrier
	Acrylic Adhesive

TECHNICAL DATA:

Physical Characteristics	Nominal Values
Color	Clear
Adhesive	Solvent Acrylic Adhesive
Total Thickness	9.0 Mil.
Adhesion/Steel	100-110 oz./in
Tensile Strength	30 lbs.
Operating Temperature (short term)	(-10F to 250F)

Notice: All above figures are average values. All products should be tested by the client on the substrates being used in their application.
